100%

Faster cancer treatment

The target is 85 percent of patients receive their first cancer treatment (or other management) within 62 days of being referred with a high suspicion of cancer and a need to be seen within two weeks. Results cover those patients who received their first cancer treatment between 1 October 2016 and 31 March 2017.

| | Quarter three performance (%) | Change from previous quarter |
|----------------------|-------------------------------|------------------------------|
| 1 Waitemata | 92 | ▲ |
| 2 Canterbury | 87 | ▲ |

85%

Increased Immunisation

The national immunisation target is 95 percent of eight-month-olds have their primary course of immunisation at six weeks, three months and five months on time. This quarterly progress result includes children who turned eight-months between 1 January and 31 March 2017 and who were fully immunised at that stage.

90%

Raising healthy kids

The target is that by December 2017, 95 percent of obese children identified in the Before School Check programme will be offered a referral to a health professional for clinical assessment and family based nutrition, activity and lifestyle interventions. Data is based on all acknowledged referrals for obese children up to the end of the quarter from Before School Checks occurring in the six months between 1 September 2016 to 28 February 2017.
