Conflicts of Interest Quick Reference Guide

Under the NZ Public Health and Disability Act Board members must disclose all interests, and the full nature of the interest, as soon as practicable after the relevant facts come to his or her knowledge.

An “interest” can include, but is not limited to:

- Being a party to, or deriving a financial benefit from, a transaction
- Having a financial interest in another party to a transaction
- Being a director, member, official, partner or trustee of another party to a transaction or a person who will or may derive a financial benefit from it
- Being the parent, child, spouse or partner of another person or party who will or may derive a financial benefit from the transaction
- Being otherwise directly or indirectly interested in the transaction

If the interest is so remote or insignificant that it cannot reasonably be regarded as likely to influence the Board member in carrying out duties under the Act then he or she may not be “interested in the transaction”. The Board should generally make this decision, not the individual concerned.

Gifts and offers of hospitality or sponsorship could be perceived as influencing your activities as a Board member and are unlikely to be appropriate in any circumstances.

- When a disclosure is made the Board member concerned must not take part in any deliberation or decision of the Board relating to the transaction, or be included in any quorum or decision, or sign any documents related to the transaction.
- The disclosure must be recorded in the minutes of the next meeting and entered into the interests register.
- The member can take part in deliberations (but not any decision) of the Board in relation to the transaction if the majority of other members of the Board permit the member to do so.
- If this occurs, the minutes of the meeting must record the permission given and the majority’s reasons for doing so, along with what the member said during any deliberation of the Board relating to the transaction concerned.

IMPORTANT

If in doubt – declare.

Ensure the full nature of the interest is disclosed, not just the existence of the interest.

PUBLIC ATTENDANCE

Radio New Zealand – Rowan Quinn

Radio NZ has made a request for items 2, 3 and 4 in the unconfirmed confidential minutes of the 1 April 2020 meeting to be transferred to open agenda.

Rowan Quinn addressed members commenting that she did not need to tell them of the huge impact COVID-19 was having on Aucklanders and New Zealanders, whether that was to their health, their families’ health, their mental health, their incomes or their way of life.

Rowan argued that it was in the public interest for most matters regarding the virus, and the health response to it, to be discussed in an open and transparent manner in the spirit of the democratically elected board system and the Official Information Act.

Rowan also argued that public interest outweighs the reasons (commercial sensitivity and worries about prejudice to health and safety) listed for keeping this information confidential.

There have been questions raised about the distribution and the availability of PPE. This issue is one that affects thousands of staff and patients, and potentially the hundreds of thousands of people in the Auckland DHB’s area. They should have transparency into decisions being made about it.

Rowan asked that when items were placed in confidential session that careful consideration be given as to whether they could not in fact be considered in open agenda.

The Board Chair, Pat Snedden acknowledged that Rowan put forward an important point of view and that the Board itself tried to be a source of information from the Auckland DHB that the public could absolutely rely on. At the same time it had to be acknowledged that there were issues arising so quickly that if the Board could not be completely clear on those issues then they could not put information in the public arena until clarity did exist.

The determination that has to be made here is the importance around ... [Pat Snedden lost connection to the Zoom meeting at this point, then picking up again] I understand entirely your
concerns and it is completely legitimate for the Board to be as transparent as it possibly can be in the interests of the health of the population that we are in service of but I also point out that in a fast moving environment, where we are working largely from information from Incident Management Teams and we are attempting to do the very best that we can to keep the population safe, we are having to make judgements required on behalf of the population in our roles as governors. Sometimes these judgements are having to be made without full information and therefore will occur in confidential session until a clear and unambiguous message can be made to the public. Sometimes that is awkward and difficult and will sometimes be frustrating for the media but in this fast moving environment care needs to be taken with information release and how we message what is being done.

Decisions around conferment of delegated authority during COVID 19 have been moved to the open agenda but the item dealing with PPE cannot be released while there is confusion and sensitivity around the issue and a potential for unclear messaging.

Rowan Quinn responded saying that sometimes uncomfortable things are part of the facts of a matter and just because something is uncomfortable does not mean it should not be in the public arena. Rowan acknowledged the sensitivity of what was being dealt with and the fact of privacy and commercial sensitivity but wanted to remind members that consideration should always be given to what could be transferred to open session. She was pleased that this discussion had occurred in the public part of the meeting.

[Pat Snedden lost connection to the Zoom meeting at this point]

Tama Davis assumed the chair. He thanked Rowan Quinn for her attendance and for raising an important issue.

A discussion was had in relation to Public access to Board meetings during COVID 19 going forward. Ailsa Claire advised that she and the Board Chair, Pat Snedden had been discussing how this would be managed. As the situation is now stabilising there is an opportunity to have regular Board meetings of a more formal nature. Consideration was being given to when and how frequently this it is a public organisation.

Up until now things had been happening so quickly that the Executive Committee of Board was being used to manage day-to-day arrangements. Now that a much more stable position had been attained a full formal Board meeting would be held within the next few weeks with formal papers describing where the organisation is at.

The position now is that public documents around planning can be put forward. One good reason for doing that is to provide assurance to the public that coming into the hospital is safe. The lockdown has engendered a fear of moving outside of one’s own home and this has meant that a lot of the hospitals business as normal is not occurring. This relates to people who would normally be seen with chronic conditions but are now coming into the ED very late. The Board now has to demonstrate in the public domain that a hospital is not a place that you should feel unsafe; it is probably one of the safest places as management of infection is well understood and strictly followed. Therefore, it is proposed that some clear reports around what stage the hospital is at and where it is with its planning should be released.

Rowan Quinn thanked Ailsa Claire for the clarification and left the Zoom meeting.

**Major Capital Expert Advisory Group – New Appointment**

**Recommendation:**

That the Executive Committee of Board approve the removal of Doug Armstrong from and the appointment of Fiona Lai to the Major Capital Advisory Expert Group

Prepared by: Pat Snedden (Board Chairman)

**Purpose**

This paper proposes the removal of Doug Armstrong from and the appointment of Fiona Lai to the Major Capital Advisory Expert Group

**Background**

The Advisory Group membership is currently as follows:

<table>
<thead>
<tr>
<th><strong>Major Capital Programmes Expert Advisory Group</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Chair</strong></td>
</tr>
<tr>
<td><strong>Member</strong></td>
</tr>
<tr>
<td><strong>Member</strong></td>
</tr>
<tr>
<td><strong>External Member</strong></td>
</tr>
<tr>
<td><strong>External Member</strong></td>
</tr>
</tbody>
</table>

There are currently three members, who as external appointees, bring with them experience that does not widely exist within the current Board membership. There are two Board Members on this Advisory Group.

To allow more flexibility in ensuring that not only does an appropriate mix of experience and skill exist, but also a better representation gender wise within the Group, it is proposed that Fiona Lai replace Doug Armstrong. Board member Doug Armstrong supports this replacement.

This will ensure a good skill and experience level within the group and provide for appropriate representation.
Resolution to exclude the public from the meeting

Recommendation

That in accordance with the provisions of Clauses 32 and 33, Schedule 3, of the New Zealand Public Health and Disability Act 2000 the public now be excluded from the meeting for consideration of the following items, for the reasons and grounds set out below:
