**Re: Official Information Act request – Traffic Flow and Parking Assessment**

I refer to your official information request dated 05 November 2021 for the following information

**May I now request a copy of the assessment report mentioned in bold below?**

The changes flowing from these include shuttle services, off-site parking, promotion of public transport, car-share or car-pooling. Auckland DHB has engaged transportation specialists to provide a **comprehensive assessment of Auckland City Hospital traffic flow and the state of the parking portfolio**. This formed the basis for our short, medium and long term initiatives to reduce car-parking pressure and promote more accessible, flexible modes of sustainable transport.
