Re Official Information Act Request for fertility treatment funding

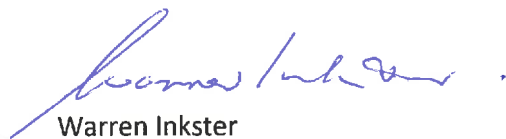

I refer to your official information request of 1 May 2019 to the Ministry of Health and partially transferred to Auckland DHB on 15 May 2019 for information about fertility treatment funding.

Part of the information to which your request relates namely data on how many people received publicly funded fertility treatment and how much was spent per year on publicly funded fertility treatment is not held by Auckland DHB as a provider of services.

The information you seek is more closely connected with the role of our regional funder, namely Waitemata DHB. In these circumstances, we are required by section 14 of the Official Information Act to transfer your request.

We have partially transferred your request to Waitemata DHB and they will be in contact with you.

Yours faithfully
